

## APIMB is a simple mikroBUS™ sockets adapter for Raspberry Pi™

Dedicated for ALFA Network's 802.11ah WiFi module, the AHMB7292S, can be used also with many other click boards™ modules on Raspberry Pi™ single board computer family.

### Key features

- 1 Raspberry Pi™ 40-pin expansion connector
- 2 mikroBUS™ socket with SPI, I<sup>2</sup>C and UART support
- 3 mikroBUS™ socket with SPI and PWM support
- 4 4× mounting hole

**Compatibility**

Raspberry Pi™ 3 model B, 2 B, 1 A+ and B+

**Bus support in mikroBUS™ socket #1**SPI  
I<sup>2</sup>C  
UART**Bus support in mikroBUS™ socket #2**SPI  
PWM**Dimensions**

65 × 56 × 19 mm
